

# Thanks for keeping *the promise.*

Kansas legislators made a promise last year to help kids get the health care they need at a price their parents can afford. And, they've delivered on that promise.

When kids get the preventive care they need to stay healthy and can see a doctor when they get sick, we can keep childhood illnesses from becoming costly, life-long medical problems. With health care, an earache doesn't have to become a hearing problem. A toothache won't keep a child away from school. And, a mother can let her child play soccer without having to worry that a broken leg could send her family into a financial tailspin.

*Making children's health care affordable for Kansas families:*

**It's a promise we can keep.**
