Wisconsin	3,540,472	63.8%	7.9%	9.2%	1.0%	10.1%
Wyoming	359,462	60.1%	9.0%	4.0%	0.7%	16.7%

Source: Georgetown University Center for Children and Families analysis of single year estimates from the US Census Bureau's 2014 American Community Survey (ACS).

Notes: Data on poverty levels include only those individuals for whom the poverty status can be determined for the last year. Therefore, this population is slightly smaller than the total non-institutionalized population of the U.S. and estimates may differ slightly from estimates published in Georgetown CCF's brief, *Children's Health Insurance Rates in 2014*. Sources of coverage are not mutually exclusive; a person may have more than one type of coverage. Estimates have a 90% confidence interval.

For more information on methodology and estimates, please refer to [Children's Health Insurance Rates in 2014: ACA Results in Significant Improvements](#).
