EXHIBIT 31. (continued)

State	CHIP and Medicaid	CHIP-funded coverage			Medicaid-funded coverage
	Total	Medicaid expansion	Separate CHIP	Total ¹	Total
Ohio	1,544,429	181,100	–	181,100	1,363,329
Oklahoma	710,552	174,167	16,691	190,858	519,694
Oregon ⁵	608,882	–	121,869	121,869	487,013
Pennsylvania	1,535,591	64,638	229,704	294,342	1,241,249
Rhode Island	131,036	29,948	1,376	31,324	99,712
South Carolina	718,195	98,336	–	98,336	619,859
South Dakota	96,980	12,441	3,775	16,216	80,764
Tennessee	925,671	17,971	88,244	106,215	819,456
Texas	4,585,378	336,769	712,854	1,049,623	3,535,755
Utah	310,061	27,762	27,523	55,285	254,776
Vermont	79,484	4,766	–	4,766	74,718
Virginia	865,234	86,551	102,815	189,366	675,868
Washington	833,523	–	46,037	46,037	787,486
West Virginia ⁶	345,728	15,242	33,036	48,278	297,450
Wisconsin	715,155	96,973	71,603	168,576	546,579
Wyoming ⁷	63,311	⁸	⁸	5,649	57,662

Notes: FY is fiscal year. Total column reflects children ever enrolled in CHIP or Medicaid during the year, even if for a single month. Most states counted children who were enrolled in multiple categories during the year (for example, in Medicaid-funded coverage for the first half of the year but in CHIP-funded coverage for the second half) in the most recent category (state-specific exceptions to this rule are noted below). Medicaid-funded child enrollment shown here includes all children, regardless of disability status; in other MACStats exhibits that break enrollment out by eligibility group, children qualifying on the basis of disability may be counted in the disabled category rather than the child category. Data were reported by individual states as of May 2, 2016, and may be revised at a later date.

– Dash indicates zero.

¹ Total exceeds the sum of Medicaid expansion and separate CHIP columns due to only total CHIP enrollment being reported for Wyoming.

² Due to reporting system updates, CHIP enrollment totals are estimates as a result of the exclusion of certain unborn CHIP enrollees in reporting.

³ Certain enrollees who should have been assigned to CHIP were assigned to Medicaid beginning in the second quarter of 2014, making FY 2015 totals artificially low.

⁴ CHIP-funded Medicaid enrollees are included in Medicaid enrollment counts, rather than in CHIP for FY 2015. Therefore, the CHIP enrollment totals are artificially low and the Medicaid enrollment totals are artificially high.

⁵ Certain enrollees who should have been assigned to CHIP were assigned to Medicaid-funded coverage for FY 2014 and FY 2015.

⁶ Enrollment totals are artificially high because children who transitioned between CHIP and Medicaid are reported in both programs, rather than the program they were last enrolled.

⁷ The Centers for Medicare & Medicaid Services (CMS) FY 2015 children's enrollment report considers these values to be estimates.

⁸ Due to inconsistencies between the Statistical Enrollment Data System (SEDS) data and the CMS FY 2015 children's enrollment report, we do not report enrollment for Medicaid expansion and separate CHIP. We only report total CHIP enrollment as provided in the CMS FY 2015 children's enrollment report.
