</tbody>
</table>

**Notes:** Adults are defined as 18-64 years of age. Other coverage includes Medicare, TRICARE, VA and two or more types of coverage. Direct-purchase includes coverage through the marketplace. The Census Bureau provides the following categories of coverage for respondents to indicate source of health insurance: current or former employer, purchased directly from an insurance company, Medicare, Medicaid or means-tested public coverage (includes CHIP), TRICARE/military health coverage, VA health care, Indian Health Service (IHS), or other. Individuals who indicate IHS as their only source of health coverage do not have comprehensive coverage and are considered to be uninsured.

**Source:** Georgetown University Center for Children and Families analysis of the five-year estimates of summary data from the 2011-2015 American Community Survey (ACS). The U.S. Census Bureau publishes ACS summary data on American Fact Finder. Percent estimates were computed.
