

# MaineCare (Medicaid and CHIP): Covering Maine's Children

In large part thanks to MaineCare (Medicaid and the Children's Health Insurance Program), 95% of Maine children have health coverage. Our most vulnerable families count on these programs to help their children grow into healthy, productive adults.

## BUILT TO HELP CHILDREN

Medicaid and CHIP guarantee children the services they need to grow up healthy and thrive:

Check-ups

Dental care

Immunizations

Prescriptions

Health screenings

**42%** of MaineCare enrollees are children.

## COVERING CHILDREN WHO NEED IT MOST

In Maine, MaineCare covers:

**39%**

of infants, toddlers and preschoolers

**49%**

of children with disabilities or special needs like diabetes and asthma

**79%**

of children who live at or near poverty

**100%**

of children in foster care

## LONG-TERM BENEFITS FOR MAINE

Children with health insurance are more likely to succeed in school and in life. Children enrolled in MaineCare **miss fewer school days, perform better in school, are more likely to graduate high school and go to college, earn higher wages and pay higher taxes as adults.**

We must keep MaineCare strong for Maine and our children. Changes or federal funding cuts that threaten coverage for children are a step in the wrong direction.
