

Medicaid & NJ Family Care: Covering New Jersey's Children

In large part thanks to Medicaid and NJ Family Care (CHIP), 96% of New Jersey children have health coverage. Our most vulnerable families count on these programs to help their children grow into healthy, productive adults.

BUILT TO HELP CHILDREN

Medicaid and CHIP guarantee children the services they need to grow up healthy and thrive:

Check-ups

Dental care

Immunizations

Prescriptions

Health screenings

48%

of Medicaid and NJ Family Care enrollees are children.

COVERING CHILDREN WHO NEED IT MOST

In New Jersey, Medicaid and NJ Family Care cover:

37%

of infants, toddlers and preschoolers

32%

of children with disabilities or special needs like diabetes and asthma

78%

of children who live at or near poverty

100%

of children in foster care

LONG-TERM BENEFITS FOR NEW JERSEY

Children with health insurance are more likely to succeed in school and in life. Children enrolled in Medicaid **miss fewer school days, perform better in school, are more likely to graduate high school and go to college, earn higher wages and pay higher taxes as adults.**

We must keep Medicaid and NJ Family Care strong for New Jersey and our children. Changes or federal funding cuts that threaten coverage for children are a step in the wrong direction.
