Vermont	600	1	600	1
Virginia	25,400	42	20,500	35
Washington	9,400	25	14,600	30
West Virginia	2,300	7	3,100	7
Wisconsin	14,800	34	15,100	31
Wyoming	4,000	11	3,900	8

Source: Georgetown CCF analysis of one-year estimates from US Census Bureau American Community Survey, Table S2701. While the age categories of the ACS health insurance tables were updated in 2017, moving the upper bound for the child category from 17 to 18, the grouping for children under six years of age did not change. Therefore, comparisons for the under six population are possible on a three-year trend. Estimates rounded to the nearest 100.

\*Change is significant at the 90% confidence level relative to the prior year indicated.

Table 2. Percent of Uninsured Children Under 6, 2016-2019
