¹ May have disenrolled for other reasons.

² A vast majority of children recorded as disenrolled were still within their 12-month continuous eligibility period.

³ The coverage months of July and August (summer vacation) followed by the coverage months of December and January (holiday season) are typically coverage months where higher than normal disenrollments occur due to non-payment of premium - commonly described as "seasonal disenrollments." Most children return in subsequent months. For purpose of this analysis, returning children will be reported in the "Disenrolled - Returned at Least Once" cohort.

⁴ Some children disenroll and return multiple times during their continuous eligibility period.
